EXPERIENCE

Altimetrik: *Team Lead*

JANUARY 2019- PRESENT

I led teams working with multiple fintech clients using a wide variety of technologies, maintaining SPA and server-side applications. Some of the technologies I have been working on are Reactjs, Vue, Solid, RoR, Clojure, ClojureJs, NodeJs, NextJs, PostgreSQL, and Salesforce.

- Lead and motivate the team to accomplish the project objectives
- Plan the development and the frontend side of the architecture of the solution
- Provide and receive feedback from each team member
- Empower the team members by guiding them to reach higher positions in their careers
- Taking interviews of new candidates
- Actively assist in the development

Altimetrik: *Senior Developer*

JULY 2018 – DECEMBER 2018

Working with globally distributed agile teams, building and maintaining complex systems based on the Force.com platform.

- Guide Jr. developers whenever a new one joined the project.
- Development of the frontend side of the application using Visualforce, Aura components, Lightning pages, JavaScript and AngularJS
- Development of the backend architecture using Apex and declarative capabilities of the Salesforce platform. Taking into account the platform limitations and enforcing the CRUD and FLS.
- Migrating Salesforce classic to Lightning experience

Altimetrik: *Semi-Senior Developer*

JULY 2016 – JUNE 2018

Working with an agile team using Scrum methodology to ensure delivery of high-quality work every weekly iteration.

MAIN SKILLS

ReactJs – JavaScript (ES6+) – CSS – HTML SQL – Salesforce – Leadership – Scrum – OOP

SIDE PROJECTS

GitHub Projects
github.com/AERODARIUS

XLS to XML Converter (Java)
sourceforge.net/projects/xlstoxml
The code is on GitHub

Demo React application (ReactJs)
erp-rpg.web.app
The code is on GitHub

How to Become a Web Developer: Navigating the Rising Demand in the Era of AI

Everybody hates cookies, so why are they still alive in 2023? 🤔

Git Cheatsheet: A Quick Reference Guide for Git Commands ✨

Choosing the Right Programming Language

dev.to/aerodarius

- Develop Salesforce applications using the declarative capabilities of Salesforce.
- Developing complex responsive applications using Apex, Visualforce pages, JavaScript, CSS, and HTML.

Altimetrik: *Junior Developer*

MARCH 2014 - JUNE 2016

I was developing a web page to manage clients and events for any eye care company.

- Implement the interface of the web application in ExtJs
- Help migrate from Salesforce to .Net system

Altimetrik: *QA Advisory*

AUGUST 2013 - FEBRUARY 2014

I was in charge of guiding and helping other junior and trainee QAs, in particular with automation. Document all processes regarding the QA activity. Also having the same responsibilities as the previous role.

Altimetrik: *QA Tester*

MARCH 2012 - JULY 2013

Perform exploratory testing. Write and execute test plans. Responsive design testing. Maintenance of automated test cases in Jenkins. Test Web Services using SoapUI and CURL. Test Web Services using SoapUI and CURL. Performance test cases using JMeter.
